

HYDRO LIFE[®]

WATER FILTRATION SYSTEMS

Food Service

*The Original Filter
for Lime/Scale
Reduction.*

FILTERING WITH HYDRO LIFE BOOSTS YOUR BOTTOM LINE

Water..In the food service business, no other element does more to affect the taste of food. Whether your customers order hot beverages, cold drinks or a glass of ice water, their enjoyment depends in large measure on the taste of the water.

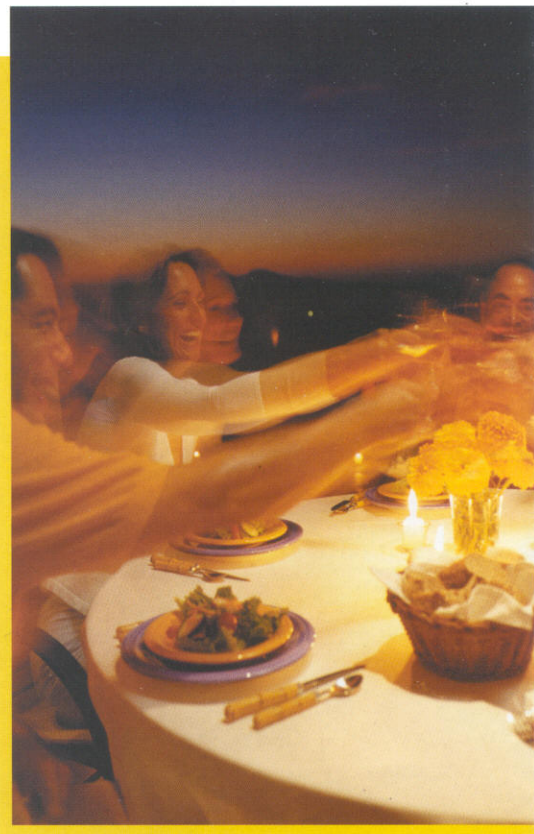

This means the more effective the filtration system is at removing contaminants from tap water, the better. And Hydro Life filters are superior to competing filters in reducing lime/scale buildup and chlorine, while eliminating bad taste and odor.

Unlike competing filters that pack media loosely, we tightly pack our media within the cartridge, forcing all of the water to interact with the media. This advanced filtration system can reduce your maintenance costs by 50 percent or more. That's money in the bank for you.

In addition, our filters cost less than competing filters, making your profits even greater. And because Hydro Life filtered water makes beverages more tasty, your customers will keep coming back for more.

Other features and benefits of Hydro Life's water filtration system include:

- Reduced lime/scale buildup in water valves and tanks help lengthen equipment life
- Less contaminants help equipment perform at maximum capacity
- Unique filtration technology results in control of bacteria growth and algae
- "Easy Change Cartridge" provides simple, reliable replacement
- Adaptable to any incoming water line
- O-ring design eliminates leakage
- 950AD adapter kit provides easy in-field installation to retrofit into existing systems
- Superb service means added convenience and peace of mind

PROVEN TO REDUCE DOWN TIME AND MAINTENANCE COSTS

HLFS 700

Application(s)
 Inline filter for coffee brewers, cold drink, juice and slush equipment.

HLFS 950

Application(s)
 Hot and cold drink equipment, water fountains, slush and juice machines.

HLFS 950AD

Application(s)
 Retrofit for Everpure® filter head and/or manifold

HLFS 1002

Application(s)
 Ideal for ice machines, steamers and other equipment where a prefilter is not needed.

HLFS 2002

Application(s)
 Ideal for ice machines, steamers and other equipment. A prefilter is included.

HLFS 3002

Application(s)
 More effective in heavy lime scale applications for ice machines, steamers, and other equipment.

HLFS 3002-5

Application(s)
 For larger ice machines and other equipment that requires higher flow rates.

Models HLFS 1002 2002, 3002, 3002-5 have been Tested and Certified by NSF International to ANSI/NSF Standard No. 42 for Reduction of Chlorine, Taste, and Odor

Model HLFS 700	Model HLFS 950	Model HLFS 950AD	Model HLFS 1002
Dimensions 12" H, 2-1/2" W, 3" D, I/O 1/4" Compression	Dimensions 15" H, 3-3/4" W, 4-1/2" D, I/O 3/8" FPT	Dimensions 12-1/2" H, 3-1/2" W, 3-1/2" D	Dimensions 15-3/4" H, 9-1/4" W 5-1/4" D, I/O 1/2" FPT
